The developments of the day were of a favorable character, with the single exception of stiffness in call money rates. The ex-treme high figure reached 8 per cent, but the market was not affected, while on the other hand a weakening tendency in rates late in the day gave further impetus to the upward movement in stocks. The financial community at large was encouraged by the failure of the Bank of England to advance its minimum rate of discount. In addition the foreign exchange market displayed heaviness of tone on an absence of de-mand and increased offerings of commercial bills. The opening was rather tame, but was relieved to an extent by a moderate covering demand from the shorts. Chicago, Sept 17 .-- Light northwest ern receipts and heavy foreign accept ances were the sustaining influences in wheat today. There was considerable realizing on the sharp advance, but prices were well held, December closing at an advance of % cent. Corn closed % cent higher, oats 14 cent higher, and provisions 21/2 cents higher to 5 cents The long pent-up feelings of the bulls

in wheat found vent at the opening today. They became actually enthusiastic in the way they bid for the limited offerings and the price in about half an hour from the start marked over 1 cent per bushel advance. The reasons for the cheerfulness which was seen to pervade in the ranks of the bulls were various. The most encouraging feature was that the receipts at Minne apolis and Dubuth numbered only 832 car doads, compared with 1,043 on Thursday a week ago and 1,138 on the cor-responding day of the previous year. The previous heavy northwestern reeipts had certainly much to do with the recent heaviness of the market. Liver pool sent higher quotations, reporting bid edvance for spot wheat and %d raise for futures. Berlin also came higher at the opening. There was somehing better from abroad, however, than arren quotations, New York that fiberal cable acceptances were to and, of offers made last night, and Chicago houses also had their cabled offers of No. 2 and No. 3 hard winter wheat accepted. The Chicago receipts were 220 cars as compared with 760 car loads a year ago, but only fivecars graded contract. Atlantic port clearances were equal to 333,000 bushess in wheat and flour together. The bulls did not have it all their own way, however The sharp advance proved too temp! to some of the longs to be resisted and a pretty general movement to scilo and realize profits was inaugurated. De-cember wheat opened about ½ cent high-er at from 59% to 59% cate and in about thirty minutes it was up to 61% a61% cents, and after reacting to 61% cents it rose again to its previous highest price, with one sale at 61% cents. good many took profits on thea dvance and caused the price to gradually work Who spoke on "Foreign aliasions,"
